Surrounded by vineyards in the heart of the Wine Country, Hanson of Sonoma produces the first of its kind; a vision of organic, grape-based, gluten free and NON-GMO vodka.

We get our inspiration to make unique craft spirits from each other. As a family we have found our passion for making something truly unique. This gives you the opportunity to choose something “additional” and different for your special gathering here in Wine Country. We love food and can offer you custom menus and so much more.

We would love to make your celebration a part of our family history ... and hope you return to visit us on or around your anniversary. Or anytime! We would be honored.

IMAGINE THAT ...

... your guests arrive in style with one of our transportation partners right next to our fountain for refreshments before being seated for “the ceremony”.

There are numerous nuptial venues, dependent on your group size, the weather and your vision. From your cozy “green rooms”, you can relax as they arrive.

Our site includes separated “green rooms” for the bride and groom, multiple ceremony and reception sites, both indoors and outdoors, unique and custom catering options to fit all reasonable budgets and yet, a “personal approach” to each event.

Our green rooms, for your privacy, can be pre-stocked with ice, beverages and snacks.

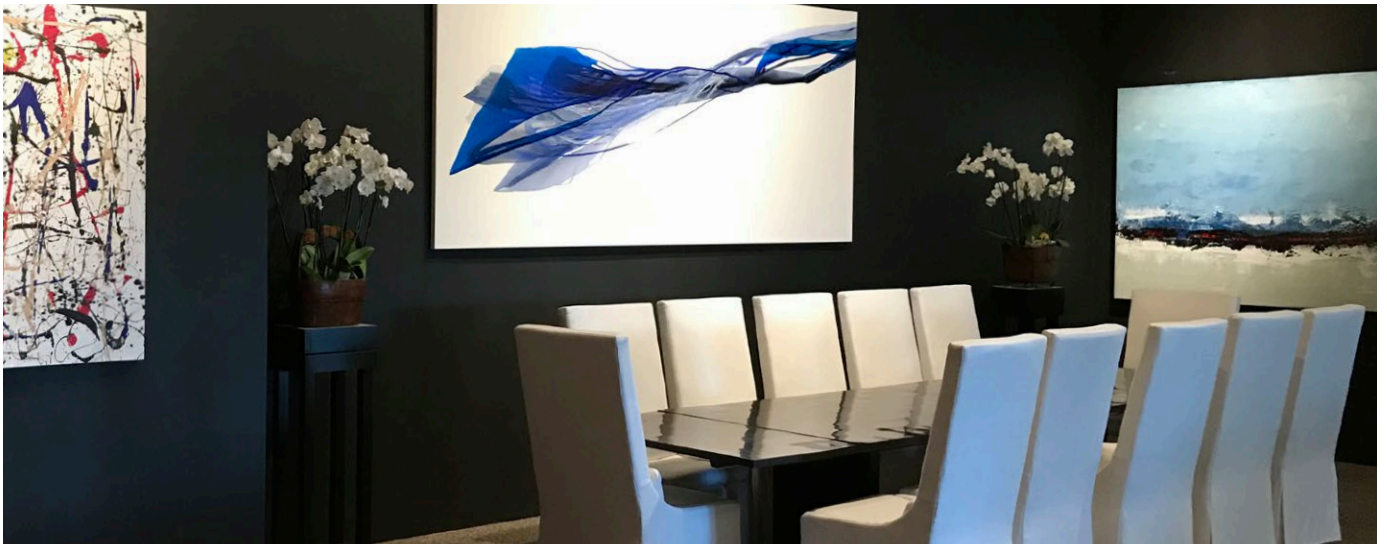

You're married! It's time for your reception and dinner. Formal or casual. Or both!

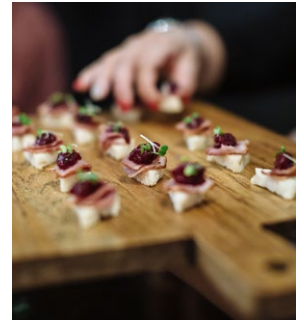

Craft cocktails and an array of culinary options through our in-house team and catering partners are available for you. We look forward to serving you
